The Honorable Todd A. Hunter

Representative Hunter:

I'm writing to let you know that your support for educators, students and our public schools has earned the endorsement of the Texas State Teachers Association in your campaign for the Texas House of Representatives.

You are authorized to utilize our endorsement in the way most beneficial to your campaign. We understand that no two campaigns are the same, and I would be glad to discuss the strategic approach that best suits your race. We will inform our leaders and members in your district about your endorsement, and encourage them to support your campaign ways that are most helpful to your election effort. We will contact you or a representative of your campaign manager, to discuss how TSTA can most effectively integrate our efforts and resources into your campaign.

TSTA is committed to excellence in our public schools. We are constantly working to insure a quality education for our students and provide teachers and educational employees the respect and support they deserve.

We look forward to working with you on a successful campaign and during the next legislative session.

Sincerely,
